

Organisch vloerkleed

100% op maat | Zelf ontworpen

Stappenplan

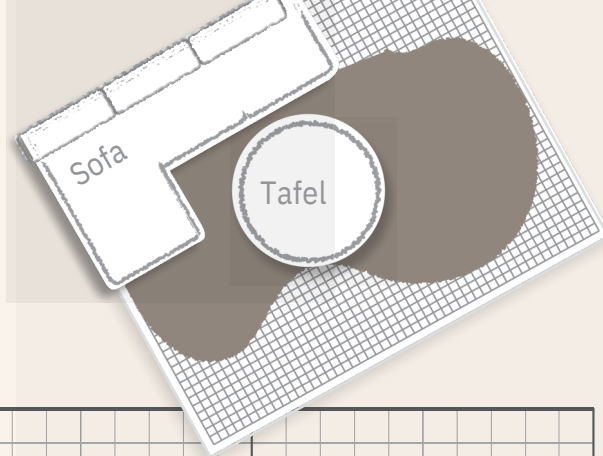

1. Bepaal aan de hand van de ruimte en meubels welk formaat je maximaal wilt hanteren.
2. Het kan makkelijk zijn om eerst de meubels op schaal op het blad te tekenen, zoals de bank, een poef en eventueel een bijzettafel.
3. Bij het ontwerpen van een vloerkleed in een organische vorm starten wij graag met het bepalen van de rondingen. Neem hierbij de positie van meubels als uitgangspunt, bijvoorbeeld de plaats van een tafeltje, poef, of waar de hocker van de bank eindigt.
4. Verbind vervolgens de verschillende punten van deze rondingen, door bijvoorbeeld juist het kleed speels naar binnen te laten lopen.
5. Teken daarna de achterzijde van het tapijt, het gedeelte dat onder de meubels valt. Hiervoor adviseren wij een rechte lijn aan te houden.
6. Stuur ons je ontwerp met eventueel foto's van de ruimte en dan ontvang je van ons een offerte. Succes!

TIP! Voor het tekenen van het vloerkleed maken wij graag gebruik van hoekpunten op het raster van de maximale afmetingen. Op deze manier kan het tapijt binnen het gewenste formaat worden ontworpen en sluit het optimaal aan op de ruimte.

**Groet,
Team Organisch vloerkleed**

Laat jouw vloerkleed naadloos
aansluiten bij jouw interieur!
